MICROPROCESSING AND MICROPROGRAMMING
VOLUME 31, NUMBERS 1–5, APRIL 1991

SPECIAL VOLUME: SHORT NOTES EUROMICRO 90

CONTENTS

Letter from the Short-Note Editor, Euromicro 90 v

Z. Papp
Scheduler architecture for knowledge based measuring systems 3

P. Milligan, L.C. Waring and A.S.C. Lee
BIFS: a filing system for multiprocessor based systems 9

V. Mahnič
Using grid files for a relational database management system 13

S. Tunali and E. Orhun
A prototype rule-based system to schedule production for a job-shop 19

G.D. Tziallas, S. Karkanis and K. Tsoutsou
A knowledge-based approach for the development of concurrent software 25

S. Flavell, S. Winter and D. Wilson
Matching region adjacency graphs 31

J. Signorini
Integrated design tools for very large scale cellular architectures 37

M. Larsson
Mixed static and dynamic reasoning in a formal system 43

V. Piuri and R. Stefanelli
Concurrent error detection in parallel multipliers and complex arithmetic structures: remarks on the use of the 3N code 47

D.J. Soudris, M.K. Birbas and C.E. Goutis
Mapping iterative algorithms on regular processor arrays without using uniform recurrent equations 53

J. Györkös, I. Rozman and T. Welzer
Activation and validation of the system specifications 59

W.E. Kozlowski
Hybrid fault diagnosability using the comparison-based approach 65

Z. Peng
Design of clocking schemes in high-level synthesis 71

G. Dreo, N. Čižek, B. Horvat and V. Žumer
Cost analysis of interconnection networks 77

M.A. Musicante and R.D. Lins
GM-C: a graph multi-combinator machine 81

J-F. Perotto, C. Piguet and A. Kägi
Multiprocess architecture for watch applications 85

T. Higuchi, T. Furuya, K. Handa and A. Kokubu
Initial evaluation of a parallel associative processor IXM2 89

H. Ahmed
A dataflow model based on a vector queueing scheme 93

D.C. Shin and S.C. Moon
An efficient log-based crash recovery scheme for nested transactions 99

G. Dewan and P. Biswas
A snooping cache coherency protocol for hierarchically organized multiprocessors 105

J. Etkin and J.H. Choi
Architecture and implementation method of real-time recovery in distributed systems 113

R. Stainov
An asynchronous checkpointing service 117

B. Fjellborg
A Petri net model for pipeline scheduling 121

A. Antola and M. Tellarini
Definition and evaluation of a transputer-based architecture for image compression and reconstruction 127

P. Ghisotti and A. Zanna
New techniques in mapping applications on transputer networks 133

E. Harms, S. Kounias, L.J. Vroomen and P.J. Zsombor-Murray
A binary-decision/transputer network for the control of a planar three degree of freedom parallel robotic manipulator 137

Calendar of forthcoming conferences and events 143

Author index of volume 31 145

Subject index of volume 31 147
